## Objective

Obtain a position as a front-end developer/designer where I can create high quality, user friendly websites that offer an extraordinary user experience.

## Employment

February 2010 - Present  
Saforian  
Front-end Developer

July 2007 - October 2009  
Gibraltar Technologies, Inc.  
Web Designer

I also run my own freelance business under *Paramount Web Concepts*. Through it, I have worked on the following projects...

Bretstin Builders, Inc. (2009)  
Created a website showcasing their variety of houses, and their construction process.  
*Identity, CSS, JavaScript (jQuery), Web Design*

Fisher's ATV World (2008)  
Optimized website for quick load times, as well as website maintenance. Also created monthly newsletters including Lightbox galleries.  
*Identity, CSS, JavaScript, Web Design*

Chesapeake Wallcoverings Corporation (2008)  
Converted the print copy wallpaper book *Sunday Morning* to an interactive digital copy website.  
*Identity, CSS, JavaScript, Web Design*

## Education

September 2005 - June 2009  
Art Institute of Pittsburgh  
BS Interactive Media Design

Continuous education keeping up with latest trends and technologies in web design by reading and staying active in the online community.

## Awards
